## Choice Gladiolus Selections For Nineteen-thirty.

Specializing in and offering some of the outstanding introductions of the world's leading hybridizers.

Offering those varieties which have proven themselves worthy of a place in our gardens and the gardens of our customers.

Our varieties have been chemically treated for disease and grown on new soil for the past two years, thereby insuring our customers the best bulbs that can be produced.

We guarantee you will be treated right. We are listing only worth while varieties. You will receive extras with all orders. We want you to be a satisfied customer. If we make any mistake, tell us and we will gladly make good.

All bulbs will be up to A. G. S. standard size:—large  $1\frac{1}{4}$  inches up; medium  $\frac{3}{4}$  inches to  $1\frac{1}{4}$  inches; small  $\frac{1}{4}$  inch to  $\frac{3}{4}$  inch. Cormels as they grow.

We will be glad to quote prices on collections of certain colors or types. If you are intending to buy in quantity, make out your list and write for special prices. All correspondence promptly answered.

This catalogue is very limited as to space, hence descriptions of varieties must be quite brief. If you care for further information regarding any variety (listed or not) feel free to write us. We will give you our confidential opinion.

We are members of the American Gladiolus Society and its affiliated society, the Ohio Gladiolus Society. Always at your service for the best in Gladiolus.

DALE BRADFORD

**TERMS OF SALE**—Cash should accompany all orders. No order accepted for less than \$1.00. All stock offered subject to previous sale or to loss for reasons beyond our control. We do not substitute either in size or variety.

No warranty is given as to crop results, as growing conditions are beyond our control.

If we do not list what you want, write us.

We are growing in our trial plots most of the newer originations. Some of the new importations: (Mairs from Scotland, Pfizers from Germany, Errey's from Australia) are held in bond and can not be sold until released by the Federal Horticulture Board.

Of some new varieties we have only a few bulbs, not enough to list. However, we shall be glad to supply you should you be interested in the very newest things.
